

# THE CENTER FOR CANCER CARE NURSE PRACTITIONERS

*The Center for Cancer Care at Exeter Hospital has a unique collaboration with specialists from the Massachusetts General Hospital Cancer Center to offer patients the highest level of cancer care in the region. Leading radiation oncologists, medical oncologists/hematologists and nurse practitioners from Mass General are available to patients at Exeter Hospital, with access to surgical oncology specialty care. We focus on providing comprehensive integrated care through our multidisciplinary clinics for breast, prostate, lung, gastroenterology, and head and neck cancers, which offer personalized evaluations and treatment from a collaborative team of experts.*
