

Visitation Policies and Shared Commitments

Welcome. This document provides important information to provide guidance during this time. Note: Personal Representatives are not visitors.

- Inpatients (with the exception of patients with Covid or Covid (PUI)) may have two visitors (over 12 if accompanied by an adult) at a time with the length of each visit to be determined by the inpatient staff.
- Family Center: Patients may have two support people present for their length of stay. We ask that these two be the same people. They will be identified in the hospital with either a baby band or a visitor sticker. If patient has a certified Doula, this person would not count as a support person. The Family Center will have visiting hours from 2 pm to 5 pm daily. Immediate sibling(s), accompanied by an adult are permitted. Other children under the age of 18 will not be allowed at this time.
- Patients, visitors and Personal Representatives are required to wear masks at all times while in any of our buildings.
- In compassionate care situations (such as end-of-life), decisions about visitation will be made collaboratively with the health care team, patient, and their loved ones, on a case-by-case basis.
- There are no changes to permitting entrance of a personal representative, legal guardian or designated support person.
- Emergency Department, Outpatient Areas and Core Practices Patients may have one person accompany them to their appointment, procedure, test, etc.
- In the case of outpatient surgeries /procedures, the visitor will be permitted to stay through the patient's recovery period.
- The cafeteria is open to staff only at this time.

Shared Commitments to ensure the health and safety of everyone for those that may enter Hospital Departments or Core Offices

We will:

- Screen 100% of staff daily to ensure they are symptom-free
- Test all hospital patients for the presence of active infection
- Require everyone to wear a proper mask
- Wash our hands and wear protective attire
- Practice social distancing
- Ensure that our facilities and equipment are clean and safe for everyone

You will:

- Not enter the hospital or Core office if not feeling well and provide accurate information about your health and compliance with CDC COVID-19 recommendations
- Wear a hospital-approved facemask **at all times.** If you need to eat or drink please do so outside the building.
- Wash/Sanitize your hands on arrival and when entering and leaving a room.
- Maintain six feet of distance between you and others where possible
- Follow the requests and guidance of staff in all situations
- Collaborate with the care team to share concerns or ways we can meet your expectations
