

Lauren Sullivan PT, DPT

Physical Therapist

Lauren began her career as a physical therapist knowing she wanted to work with children and each day her love for working with this population continues to grow. She is passionate about working with children of all ages and helping them to grow and play within their home and community environments. Lauren provides physical therapy in a variety of settings including the clinic and school, as well as in the pool. Within these settings she uses a variety of different equipment to provide meaningful and functional play such as scooter-boards, balance beams and boards, bikes, swings, jumprobes, playground balls, beanbags, and much more! In her free time she enjoys spending time with family and friends, running, going to the gym, and boating on the lake.
