

Plain Language Summary of Financial Assistance Policy (FAP)

Overview

If you do not have insurance, or your health insurance did not cover all of your bill, you may qualify for financial assistance if you live in our service area. A paper application along with supporting documentation is required. If you have insurance, financial assistance does not apply to non-covered services or out of pocket expenses. If you do not have insurance, you must first apply for insurance through state or other programs.

Financial assistance is for your hospital bill. It does not cover any physician services. Financial assistance must be for emergency or medically necessary care. If you qualify, you will not pay more than amounts generally billed to individuals who have insurance.
